Professional Summary

Passionate front-end developer with hands-on experience from internships and tutoring. Proficient in Next.js, TypeScript, and UI/UX design principles. Built projects that solve real-world problems, including healthcare management and AI-powered image processing. I'm committed to learning and improving my skills while sharing knowledge with others, and I'm eager to collaborate on innovative solutions to create seamless digital experiences.

Skills

Front-end Development
- JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind CSS, Zustand

Tools
- Git, GitHub, Sentry, Appwrite, VS Code

UI/UX Design
- Figma, Wireframing, Prototyping, User Research

Other
- REST APIs, MongoDB, Appwrite, Clerk Authentication, Dwolla, Plaid API

Professional Experience

Front-end Tutor, *Green Value Computer College*   06/2022 – 10/2022   Lagos, Nigeria

Tutored classmates in front-end development, helping them understand concepts like JavaScript, React, and other front-end technologies
- Provided one-on-one guidance and organized coding sessions.
- Helped students build real-world projects and improve their skills.

Front-end Developer, *HNG* ⤢   06/2024 – 07/2024   Lagos, Nigeria

Gained hands-on experience in front-end development during an internship at HNG, where I collaborated on projects, learned best practices, and contributed to building efficient web applications.
- Assisted in developing responsive and user-friendly web interfaces.
- Technologies: HTML, CSS, JavaScript, React, Next.js, TypeScript, Remix.

Projects

Horizon, *a financial SaaS platform* ⤢   08/2024 – 08/2024

Built a financial SaaS platform that connects to multiple bank accounts, allowing real-time transaction viewing, money transfers, and overall finance management.
- Created a secure user authentication and bank connection system.
- Technologies: Next.js, TypeScript, Zustand, Dwolla, Plaid API.

Carepulse, *a healthcare patient management system* ⤢   07/2024 – 07/2024

Developed a healthcare patient management system using Next.js and TypeScript. Carepulse simplifies patient registration, appointment scheduling, and medical records management for healthcare providers, with SMS notifications and an admin dashboard for efficient management.
- Integrated real-time appointment scheduling and patient data management.

- Technologies: Next.js, TypeScript, Tailwind CSS, Appwrite.

Imaginify, *an AI image-processing SaaS platform* ⧉   09/2024 – 09/2024
An AI image-processing SaaS platform built with Next.js, providing advanced
features such as image restoration, recoloring, and background removal. The
platform integrates secure payments and powerful search functionalities.
- Integrated AI-powered image manipulation tools.
- Technologies: Next.js, TypeScript, MongoDB, Cloudinary.

Education

Front-end Development Certificate, *Green Value Computer College*   05/2022 – 11/2022
Focused on building web applications and responsive design.   Lagos, Nigeria

Personal

Extremely passionate about technology and its potential to solve problems for people, I have pursued my
education in this field with determination, even taking out loans to fund my studies. I believe in lifelong
learning and am always seeking to improve my skills. I enjoy tutoring others and helping them grow as
developers as well.
